Maths

Maths Project / Model help students to improve their thinking capabilities and logical skills.

Make a best model of mathematics which should include fun, interactive displays like puzzles and games that show math concepts. You can feature art that uses shape and patterns, and demonstrate how math is used in everyday things like buildings and money. Include hands-on activities where we can try measuring angles or making patterns. Also, have a timeline of famous mathematicians and organize math challenges to keep everyone engaged and learning.

Select a topic that interests you and is suitable for a model. Some ideas include

- Constructing different types of quadrilaterals
- Representation of rational numbers in number line
- Grouping, organizing and presentation of data using charts and graphs.
- Playing with numbers
- Linear graphs (use matchsticks to represent)
- How to visualize 3D objects
